Discover the power of information and innovation.

Thank you for considering Simon Business School at the University of Rochester. As you look through the pages of this publication, and as the opportunities arise to interact with our faculty, staff, and current students, you will undoubtedly discover that Simon offers a highly personalized, analytic education that will prepare you for the next chapter of your career.

In order to keep current with market demands, Simon faculty regularly meet with professional recruiters and industry leaders. What they tell us they need most is top business talent who can offer original, well-thought-out solutions for today’s competitive business environment. That is just what Simon delivers.

Hiring managers know that each Simon graduate masters the art and science of business. They understand that we leverage our reputation for defining new trends in business with our high standard of teaching excellence to make our students some of the most sought-after and marketable professionals around the world.

I invite you to explore for yourself what the impact of personal attention and a cutting-edge curriculum can mean for your career and professional success.

Sincerely,

Andrew Ainslie
Dean, Simon Business School
The undeniable FACT©

Throughout your career, you will be asked to make smart decisions based on the best information available. Simon’s Frame, Analyze, and Communicate (FACT) model of problem solving provides a lasting framework that will guide you in everything from strategic planning to responding in an immediate crisis. Case competitions and hands-on learning using the FACT model help students apply these important principles to real-world situations.

Simon Business School will take your drive to succeed and match it with a professional skill set that will set you apart from the competition. Offering lasting frameworks for decision-making that you can apply throughout your career, a degree from Simon means you have mastered the numbers and know how to keep your eye on the bottom line.

Our unique approach has trained business leaders for decades.

Simon’s analytic, economics-based curriculum provides students with powerful and enduring frameworks to explain and predict the behavior of markets, organizations, and individual decision makers. As a result, our graduates are thoroughly prepared to take on the ever-changing marketplace throughout their careers. Our faculty helps them get there through a challenging, rigorous education, and with support, coaching, and personalized attention.

“Simon helped translate the skills I developed as a Division I athlete. The professors taught me to approach business with the same discipline.”

Stephanie Hogue
Director
PricewaterhouseCoopers LLP

’04S (MBA)
Competitive and Organizational Strategy, Corporate Accounting, and Finance

Stephanie Hogue knew she needed to build her skill set in order to compete in business. “As an undergraduate, I knew I wanted to be the CEO of a large corporation,” she says. “But early in my career when I heard executives talk about acquisitions and shareholder expectations, that language didn’t mean much to me. I realized I needed to understand the numbers and how they applied to the operation of a business.”

Stephanie says she learned that staying competitive in business is much like staying competitive as an elite athlete. “Simon gave me the ability to think more critically and ask deeper questions,” she says. “Similar to how my coach had me visualize the perfect dive and prepare myself over the competition, I would sit down with my team at PwC and prepare every iteration of a question that a client or an investor would ask. Simon built on my ability and trained me for business.”

The right foundation will help you prepare for career success.
Join an elite cohort with similar goals and equal drive.

Simon students represent some of the best and brightest minds from around the world. While here, you will work with highly motivated peers who are ready to put the time and effort into their professional success. Our smaller size means you will build meaningful relationships with faculty and students and make connections that will last a lifetime.

A close-knit community of diverse peers.
Each student benefits from the diverse makeup of our student body with a variety of personal and professional backgrounds. Over 15,000 graduates form an influential network extending around the globe and contribute in varied and significant ways to the world of business.

Establish more than just connections.
Our students connect and build highly collaborative relationships with their peers and study teams. The supportive nature of the School extends to the alumni, faculty, and staff, offering real opportunities to forge personal and professional networks.

“Simon’s smaller size helped me develop connections with the faculty and other students. Together, we created a cohesive, supportive, and collaborative environment that allowed everyone to push themselves and grow.”

Louis Mistretta
Associate Brand Manager
McNeil Consumer Healthcare
Johnson & Johnson
‘15S (MBA) Marketing—Brand Management Track, Competitive and Organizational Strategy

After graduating from the University of Rochester, Louis built a career in hospitality, eventually opening his own restaurant consulting company. When he discovered his passion for marketing, Louis realized there was more to learn. “Simon is good for anyone who needs to develop his or her quantitative skills,” he says. “The Full-Time MBA is a rigorous program designed to promote personal and professional growth. It taught me what I needed to thrive in today’s data-driven environment.”

We train business champions.

Expert coaching is as important in the boardroom as it is on the playing field. Simon students receive support from faculty and instructors who offer an important balance between business theory and practical, real-world application. We will help you face the tough challenges of today’s competitive business world with a winning combination of encouragement and instruction that you will need to outlast and outperform the competition.

We will train you for the sprint and the marathon. A Simon education develops the skills you will need for making smart, data-driven decisions. From your first day on the job, to when you’re enjoying the view from the corner office, our trusted frameworks for solving problems offer the professional tools that you will rely on throughout your career.

Our alumni are engaged in your future success. As part of the Simon experience, you will benefit from being part of the connected Simon network. Our alumni are some of the most successful executives and entrepreneurs in the world, who regularly come back to campus to share how they did it.
“I pursued my MBA because I knew I wanted to change my career. Simon sharpened my skills in several different areas and the variety of classes helped make me more flexible and adaptable for a new professional path.”

Alia Tabet  
Director of Marketing  
NFL Network  
’09S (MBA)  
Marketing and Finance

Sports are Alia Tabet’s passion. A California native, Tabet says she was attracted to Simon by the “small class sizes, quantitative-based coursework, and the opportunity to study on the East Coast.” She also credits Simon with affecting her career path and providing her with the skills and confidence to handle more challenging and robust work assignments.

Tabet landed an internship with the National Basketball Association while studying at Simon. The opportunity led to an exciting full-time position with the NBA, where she worked in digital media for nearly three years before accepting a position with the National Football League. Now serving as director of Marketing for the NFL Network, Alia is helping build the network’s digital business. “The way people watch our programming is really changing,” she says. “We’re focused on finding new ways to reach fans across multiple platforms and tying in digital metrics with television viewership.”
An MBA program that delivers lasting returns.

The Simon Business School Full-Time MBA program helps you develop the professional tools needed in today’s global economy. It’s a deep dive that delivers results and helps prepare you for even the toughest business challenges.

Build your education and your career from a solid foundation.

Simon’s renowned core of courses offers an economics- and analytics-based approach to the grounding principles of business. Truly the cornerstone of the Simon experience, the core provides the building blocks for the rest of your business education, with opportunities to both broaden and deepen your expertise. Thirteen areas of concentration are available to help you go deep in a specific area. These offerings allow you to explore the areas of business that support your career goals.

Accessible experts to shape your experience.

Simon Business School first established its prominence through scholarship and innovative business theory. Our professors and instructors continue to be some of the finest in the world. Our faculty members are go-to experts who are regularly published in key journals and cited in media outlets around the world.

A new perspective on solving business problems. Truly a home for thought leaders in business education, the experts who teach at Simon are the cornerstone of our analytics- and economics-based approach that will have you looking at business problems in a whole new way.

The cutting edge of business is integrated into your classroom. Simon Business School invests in the latest business research while striving for true teaching excellence. That essential balance helps students build new insights into business problems that they could only realize in one of the world’s top schools. Bringing the latest information together with the best faculty happens every day at Simon.

James A. Brickley
Gleason Professor of Business Administration
Professor of Economics, Management, and Finance

CENTERS OF EXCELLENCE

CENTER FOR PRICING
Students become well-versed in the latest research and current industry developments in areas such as finance, accounting, and operations.

CENTER FOR ENTREPRENEURSHIP
Identifies strategic relationships with alumni, local businesses, and nonprofit organizations to develop hands-on learning opportunities for students interested in entrepreneurship.
"At Simon, we help you understand the forces that drive optimal decision-making. If you can’t make sound decisions, you won’t make it in the business world.”

**Paul Ellickson**  
Associate Professor of Economics and Marketing

"Solid operational execution is the key ingredient for delivering business strategies. Through interactive simulations and peer-led workshops, students learn how organizations analyze data to improve operations and deliver quality products and services."

**Vera Tilson**  
Associate Professor of Operations Management

"Sometimes businesses make bad decisions. My work in forensic economics and as a witness in corporate litigation helps me to bring the latest research into my classroom so we can learn from them."

**Gregg A. Jarrell**  
Professor of Finance and Economics

---

Professor Ellickson’s research interests lie at the intersection between quantitative marketing and industrial organization, with a focus on using structural modeling to understand the forces that drive strategic interaction and decision-making.

Professor Tilson’s teaching interests are in quantitative decision-making and health care operations management. Her research interests are in health care operations, stochastic scheduling, and supply chain management. Tilson has published articles in numerous management and operations journals.

Professor Jarrell is an expert on mergers and acquisitions, hostile takeovers, the economics and regulation of financial markets, financial valuation, and microeconomic theory and application.
Simon’s approach prepares you for success in any industry.

Your career journey is unique and original to you. A Simon foundation is a smart investment for a promising future.

The best consultants master the data.
Consultants don’t just show up and offer answers. They are facilitators of a process that uncovers solutions to envision and recommend workable results for their clients and customers. Simon prepares you for a rewarding consulting career with deep immersion into time-tested frameworks that help you expertly analyze even the most complex business issues.

One of the most powerful names in finance.
Simon is as well known for scholarship and research in finance as we are for preparing students for successful careers in this exciting and challenging industry. Our graduates are prepared to solve critical business problems and recognize real opportunities in today’s financial markets and corporate finance roles.

We take the guesswork out of marketing.
Staying ahead of the competition means satisfying your customers better than the rest. We’ll prepare you for that challenge with one of the best and brightest marketing departments in the country. Whether focusing on consumer behavior or marketing analytics for driving decisions, Simon offers challenging co-curricular opportunities that prepare you for career success.
“I love being around people from different cultures. Simon has students from so many countries and with many diverse professional backgrounds. That dynamic helps make for very vibrant classroom conversations.”

Mikayla Hart
Internship
Accenture
MBA Candidate, Class of 2016
Competitive and Organizational Strategy

Mikayla Hart graduated from the University of Hawaii at Manoa with a double major in finance and international business. While working for Rip Curl North America, she began looking at business schools. “I was interested in consulting,” Mikayla says. “I knew an MBA would get me there.” Before long, she learned about Simon. “I researched Simon and it looked like a really great program,” she says. “What really sold me were visits to campus for the Scholarship and Experience Simon Weekends.”

During those visits, Mikayla says she realized Simon’s approach fit with her career goals. For her, business is sometimes about making a difference. She and several of her classmates recently restarted Simon’s chapter of Net Impact, a national organization that focuses on social impact and sustainability through business. “It’s a great way for people to come together and talk about their passions,” she says. “It gives people the ability to engage in conversations that they might not otherwise have in business school. I’m very happy to be able to help foster that.”

CLASS OF 2014

NET IMPACT
Simon Business School
Mikayla and her classmates recently restarted the Simon chapter of Net Impact, a national organization that works to inspire, educate, and equip individuals to use social entrepreneurship for a more socially and environmentally sustainable world.
Building skills beyond the classroom.

Simon clubs and organizations offer opportunities to learn and lead. From managing a venture capital fund portfolio to enhancing your learning through case studies and business plan competitions, there is certain to be a club or activity to match your interests.

Learning happens whenever you engage with opportunities, and there are many at Simon.

We understand hiring managers are not looking for candidates who can recite theories. Earning a Simon MBA means you have the practical experience you need to make an impact and build important team and leadership skills. Whether it is providing a voice for students through the Graduate Business Council or exploring hands-on learning through one of our Vision Program projects, Simon helps you develop as a smart leader and an industry expert.

Ameet Chandak
Managing Consultant
IBM Global Business Services

EXAMPLES OF VISION PARTNERSHIP PROGRAM PROJECTS

- **Investigate** potential markets and strategies for a new surgical sterilization device.
- **Develop** a market research plan and pricing analysis for a local healthcare company.
- **Explore** social media strategies for a growing software development company.
- **Create** a business plan for a not-for-profit organization supporting multicultural families.
- **Analyze** financial instruments and enterprise valuation to raise funds for a consumer packaged goods company.
“Simon provided an analytical framework for solving unstructured and unpredictable business problems. It also offered real experience working with people from a range of professions and backgrounds.”

Ameet Chandak
Managing Consultant
IBM Global Business Services

“10S (MBA)
Competitive and Organizational Strategy,
Business Environment and Public Policy

Ameet Chandak came to Simon to add a business perspective to his undergraduate degree and work experience in the information technology (IT) consulting industry. According to Ameet, it is Simon’s Frame, Analyze, and Communicate (FACT) model that often provides the most value. “The FACT approach applies to almost any business issue or scenario,” he says. “Any time I walk into a consulting project, I frame the challenge I am trying to address for the client. I then analyze it from a business and technology perspective, applying both my professional and education experience. The key step then is to communicate it back with senior client leadership to pave the path forward.”
We connect you with today’s top recruiters.

Simon’s Career Management Center connects our graduates with top companies who understand the value of a world-class business education. Our career coaches are experts in preparing you for professional success. From résumé development to mock interviews and career counseling, we will help you land the job that is right for you and turn your potential into reality.

We will prepare you to be a top candidate.

The Career Management Center works with you from day one. Starting with helpful webinars prior to orientation and continuing throughout your program, we provide the support and training you need to be even more marketable to hiring companies. From important self-assessments to communication workshops and negotiation coaching, you will learn how to present yourself with the professional polish that the world’s top companies have come to expect.

The salary report uses the salary information of 80.9 percent of graduates who have accepted a job.

For the Full-Time MBA Class of 2014, 80 percent of the class was Seeking Employment.
There’s just something about a smaller school, where you’re able to truly connect with other students from around the world and draw from their experiences. Simon reflects a world that is getting smaller and becoming more global.

Ken Burkeen  
Founder and CEO  
Huetiful ‘02S (MBA)  
Marketing, E-commerce, Entrepreneurship

Going from West Point to starting a health and beauty company that caters to women around the world seems like an unusual path for anyone, but for Ken Burkeen, serving in the military and serving his start-up company often feel very familiar. “They’re not very different,” he says. “The teamwork at Simon really helped me as an entrepreneur. I learned to approach problems and develop a vision to move the whole team forward. When you do that, your team will do great things for you.”
Connections that last from the classroom to your career.

Our smaller size enables you to connect in deeper, more meaningful ways with your fellow students, the faculty, and successful members of the Simon alumni network. Simon graduates stay connected with the School and with each other long after they get their degrees. Put the power of our alumni network to work for you.

An investment that continues to deliver returns.

Boistered by strong ties and an enduring sense of community, our alumni remain engaged with the School. Graduates often return as guest lecturers and regularly attend social events to help build important professional networks with our students. The Simon alumni network is an accessible resource of business professionals who are willing to mentor, explore professional opportunities, and share real-world experiences to help foster your career success.

Simon graduates

The Simon alumni network represents a global collection of successful executives and business professionals who make positive impact on their organizations and the world. From top-level presidents and CEOs to corporate leaders, the network can be your connection to continued career growth.

- 438 Presidents
- 274 Chief Executive Officers
- 182 Chief Financial Officers
- 1031 Vice Presidents

Representing more than 80 countries, the Simon alumni network is an important resource that can help with everything from career opportunities to doing business in the global marketplace.

Be a part of the University and the city it calls home.

Rochester is an active and vibrant city with a rich history of philanthropy, corporate development, and technological innovation. Once known as “the city that George Eastman built,” these days Rochester is better known for exciting startup opportunities that have sprung from the industry giants that started here.

A dynamic culture that adds to your experience.
With cultural events like the Xerox Rochester International Jazz Festival and the world-famous Lilac Festival, it is no wonder why Rochester was named one of the top 10 most livable cities in America. Outdoor activities are a way of life in Rochester. Whether it is summer boating on Lake Ontario, biking along the scenic Genesee River, or enjoying the snow in one of the many surrounding ski centers, Rochesterians know how to make the most of their natural surroundings.

A community with big city benefits and incredible access.
As New York State’s third-largest city, there are metropolitan offerings like coffee shops, boutique restaurants, bookstores, movie theaters, and museums. For music lovers, Rochester boasts a surprising number of concert venues, from grand theaters to a thriving club scene. Rochester is also home to the nationally acclaimed University of Rochester Eastman School of Music and the Rochester Philharmonic Orchestra.
Find out more at VisitRochester: visitrochester.com

An affordable city surrounds you.
MSN rated Rochester, NY the #1 most livable bargain market in the US. “Rochester provides a lot of bang for your buck. It has big-city culture, a highly educated population, picturesque scenery, affordable housing, and an expanding high-tech job base” (July 2011).

On campus and at your fingertips
College Town is one of the largest development projects in the modern history of Rochester. It includes restaurants, retailers, housing and hotel space, a Barnes & Noble bookstore, and much more.
The new development enhances our University neighborhood with a vibrant and cosmopolitan atmosphere. Conveniently located near the University of Rochester’s River Campus, College Town is within walking distance of the Simon Business School.
Offering more than just premium amenities and entertainment, College Town is a friendly and safe environment that includes wide footpaths and plenty of green space. It is an ideal spot to attend a concert in the open-air gazebo, purchase fresh produce from the farmer’s market, and enjoy a meal or art show.

Historic and cultural opportunities to explore.
The University of Rochester’s Memorial Art Gallery offers a panorama of the world’s art, from the relics of antiquity to works in the vanguard of contemporary movements.
The Gallery’s permanent collection of more than 12,000 objects has been called the best balanced in the state outside of metropolitan New York City.
“Simon changed the way I look at business. It gave me a new understanding of business and economics and now I see issues and approach situations from a whole different perspective.”

Cesar Quijano
Investment Banking Associate – Latin America Coverage
Credit Suisse
‘15S (MBA)
Finance

The quantitative side of business always appealed to Cesar Quijano. While studying at Simon, Cesar realized the School’s rigorous curriculum helped him both build his analytic skills and pursue his interest in data-driven decisions. “Simon gave me a much more entrepreneurial approach and business problems are clearer to me now,” he says. “Once you master Simon’s economic view of business and social behavior, you can drive better decisions and more accurately predict outcomes.”

80% of students receive scholarship support from Simon

The Consortium for Graduate Study in Management
Reducing under-representation
As the fourth business school to join over 40 years ago, Simon offers partial scholarships and full fellowships to students who demonstrate support to the Consortium’s mission to increase African American, Native American, and Hispanic American students in business school and management. Visit: cgsm.org

Forté Foundation
Promoting women in business
Forté is a consortium dedicated to substantially increasing the number of women in business. Simon offers several merit-based Forté Fellowships to highly qualified full-time MBA women each year. Visit: fortefoundation.org

“Simon delivers a top-tier finance program in a competitive, yet collaborative environment. The personalized attention helped me develop the ability to make sound decisions and put me on the path to career success.”

Hua Wang
Financial Management Associate
Citigroup

“IES (MBA) Corporate Accounting and Finance
Prior to Simon, Hua Wang received an undergraduate degree in economics, followed by a PhD from the School of Economics and Trade at Hunan University. With a goal to further her career in the finance industry, she turned her focus to business school.

“I was attracted to Simon for its prestigious finance and accounting programs,” she says. “Professors like Cliff Smith helped me gain a more holistic view of finance and encouraged me to always think critically.”
If you have been thinking about enhancing your professional prospects, exploring entrepreneurship, or changing your career, now is the time to consider Simon Business School.

Every year, our Admissions team reviews and accepts applications from some of the world’s top business talent. Finalize your application and receive our full consideration for admission and merit-based scholarship support.
