Register for Classes

Welcome to online registration. This registration system is called SIS which updates the University record system on a nightly basis. Courses that you register for today will appear in the University system the next day. This is important information to remember because your student account with the Bursar's Office reflects courses in the University system.

View Courses - Select “add” to add a course under the action column if you want to register for the course. You will not see “add” under the action column if you have already taken the course or if the course is closed.

Welcome, ██████████
